

people would keep such a secret from the people they use such a system on? Why would they keep it secret and not show their true methods on TV or even in medical documentaries?

● Over one hundred and fifty(150) years ago, the ANCIENT ORDER were using this system to control others without their knowing they were being controlled. They boldly wrote books about what they were doing just as they place this system hidden in movies today. One such book they wrote was Mary Shelley's FRANKENSTEIN. Another such book is Washington Irving's "THE LEGEND OF SLEEPY HOLLOW".

● WASHINGTON IRVING lived from 1783 to 1859. He wrote the story THE LEGEND OF SLEEPY HOLLOW about the "Headless Horseman". The "electrical oscillations in the brain" are "8 to 13" and "13 to 30 hertz."  $8 + 13 + 13 + 30 = 64$ . That is 8 times itself or  $64 = 8 \times 8$ . The "88" code stands for the "electrical oscillations in the brain." The 8th letter of the alphabet is "H".  $88 = HH$ , and in this case "Headless Horseman". The "HH" which begins "Headless Horseman" is the code for the "8 to 13...13 to 30", the alpha and beta waves.

● \*HORSEMAN: A central figure in THE LEGEND OF SLEEPY HOLLOW is the "Headless Horseman." The horse is one of the pack animals or Beasts of Burden, meant to carry heavy loads. The ANCIENT ORDER use these Laser Ray devices to control all others who are regarded as the "Beasts of Burden", meant to suffer and meant to carry heavy loads or burdens, just like pack animals. That is why the "Horse-man".

● \*HEADLESS: The "Horseman" does not have control over himself. He is controlled by whoever controls his head, his impulses, etc. Those who control him cannot be seen. His head can be seen but he does not control it. He is "headless".

● \*"E&O": Part of that control is controlling the "electrical oscillations in the brain." "E&O" is the ANCIENT ORDER code for "electrical oscillations. Notice that "E&O" are the only vowels in THE LEGEND OF SLEEPY HOLLOW.

E E E O E E O O

● The horse-man or Beast of Burden, the "electrical oscillations in the brain". The "Headless"(brainless), etc., all refer to the man, woman or child who is used like a horse, who does not control his or her own impulses. That is what this Washington Irving story is about and it was written in the 1850's or before, more than 150 years ago.

● Both FRANKENSTEIN and THE LEGEND OF SLEEPY HOLLOW were written directly about these Laser Ray devices. These are both literary classics which the ANCIENT ORDER had written and placed in American literature in the 1800's, over one hundred(100) years before their book "1984" which was printed in the year 1950. The ANCIENT ORDER had this Laser Ray system fully effective before 1850, over 150 years ago.

● THE(33) ANCIENT(66) ORDER(60)  $33 + 66 + 60 = 159$

"THE ANCIENT ORDER" adds to 159. The 159th day of the year is June 8,

Irving, Washington. 1783-1859. Amer. writ-  
er.

Legend of Sleepy Hollow, The (1980)  
C-98m. TVM D: Henning Schellerup. Jeff  
Goldblum, Dick Butkus, Paul Sand, Meg  
Poster, James Griffith, John Sylvester White,
